I developed a custom package for a product, and created a brochure to go with it. I first invented an idea for the product, bought a piece that went with it, and designed the package around it.

# Incense Boutique

Purveyors of the world's best incense

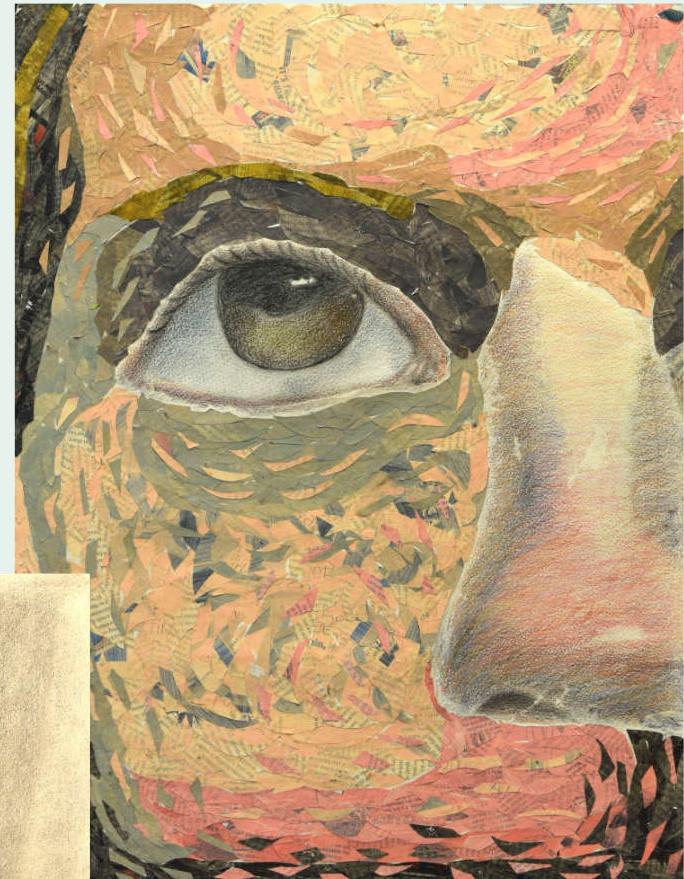

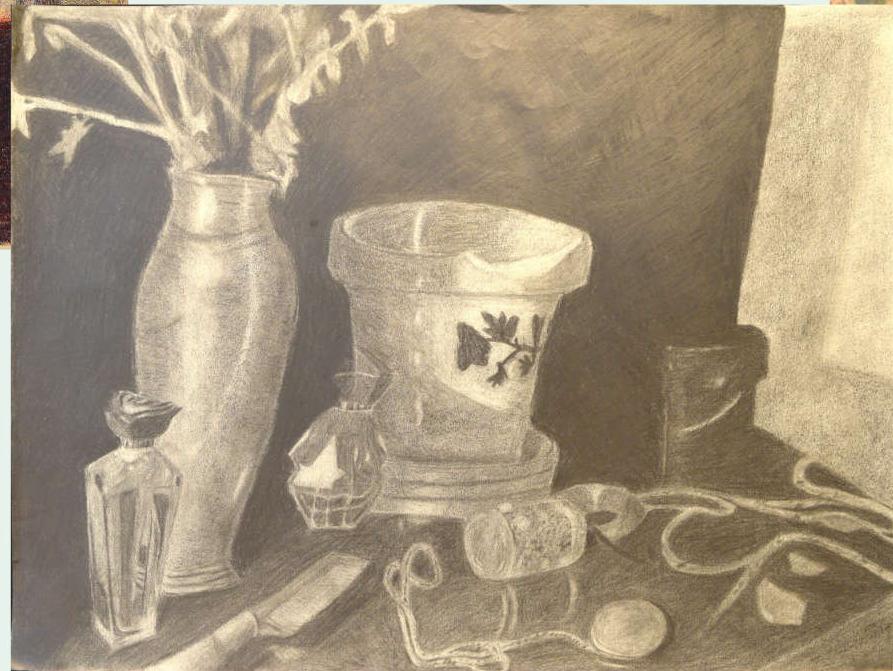

I rebranded a web page for a site by transforming their logo and overall aesthetic to harmonize with the feel of their intended theme.

Here are a couple of personal favorites from my film photography classes. Although the studio arts weren't part of my major, I enjoyed them immensely.

Here are a few pieces I created in my sketchbook. Recently, I've become very interested in pointillism. Mediums used were pencil, markers, and jell pens.
